

With my fingers I can play with these strings
Makin music, singing songs, among other things

G C G D

Chorus-----

C D G C
Cause with my fingers I can do most any thing
Play this guitar, entertain the crowd with my sing
I can pick my nose or pull my drawers outta my ass (sniff)
C D C D G
With my fingers I can I can do, most any task

With my fingers I can motion you to come over here
From across the bar, you seem so far, to buy you a beer
You use your fingers to give me the F Off sign
I guess tonight I spend alone on a 900 phone sex line

G C G D

With my fingers I can speak without word
For example, I can flip you the bird
I can do so much with just a finger and a smile
All my digits are just so versitile

Chorus

With my fingers I can play with your pussy cat
I stoke her fur, make her purr, she sure likes that
And when that pussy cat, gets lonely on a cold dark winters night
She can come to my place, and snuggle up to me real tight

G C G D

With my fingers I can touch your body's every detail
Feeling bumps and crevices like a blind man reading Braille
I can pinch your bum, and tickle you to a smile
Play with your knobs, turning them like a radio dial

Chorus

With my fingers I can touch myself at night
Icy Hot on my sore muscles is a relaxing delight
For those of you that had perverted thoughts, you need to understand
It takes more than fingers to do that, it takes both my hands

G C G D

With my fingers I can give you a rectal exam
Gotta lube it up real good with KY Jam
I'll even apply preparation H for that burning itch
Cause that's what I'd do if I was a practicing proctologist
