You all know that person at work G
the one who don't do jack G C
screws around all day long D
And you take up the slack D G

Suckers you into helping out
cause they're so far behind
they leave work early once again
now you work overtime

Chorus:-----
You work with them every day C
People you'd like to slap (hit) D G
They waste your time, they piss you off C D
They're a useless piece of crap (shit) C D G

Another migraine or the kids are sick G
they NEED to take more time off G C
their grandpa died for the 3rd time D
or the dog has a bad cough D G

Spend most of the day surfing the internet
or talking on the phone
They took a break an hour ago
spent most of it on the thrown

Chorus

You found them on smoke break again G
or sleeping on the job G C
Once again they ate the last donut D
your head begins to throb D G

You bust your ass and you look at them
They're kissing butt with style
They do all the easy work
And you're stuck with a pile

Chorus

They must be related to the boss you know G
they sure do act the same G C
cause they screwed up something bad D
and left you with the blame D G

You've had enough, can't take no more
That suckers gotta go
If something isn't done real soon
The vein in your head will blow
