

Cheeseburger with Parasites – Parody Capo4 / Low and Slow

It's hard to defend my carnivorous habits
Everyone's a veggie these days
Gotta' watch what I eat and avoid the red meat
It's cloggin' up my arteries I'm putting on weight

Last night I had a terrible dream
Woke me up right out of my sleep
But when pulled into the drive through to grab that treat
Got a big warm bun And a bad piece of meat

Not too sure where that meat has been
will make you yack again and again
Tainted steer and bread they said can make you dead
Well it reminds me of the menu at a Holiday Inn

Don't go to an unknown burger joint
it may make your stomach bleed
Just drive right home, cook it up well done
Get rid of that pink before you feed

Hidin' underneath the lettuce and tomata
A high-divin' act in my French fried potato
Tummy's got a tickle and It ain't the beer
Well, Good God Almighty, I got a bum steer

Cheeseburger with parasites
They're awful small but they're not very nice
A burger that rare is a roll of the dice
Could be a cheeseburger with parasites
I got a cheeseburger with parasites
Give me a cheeseburger with parasites
