G C  
I got a sock with your name on it  
D G  
I use it most every day  
G C  
Thinking of you, I slip off my shoe  
D C G  
Good times only a handshake a way

You asked me last week, if I found your sock in the dryer  
I have to admit, I'm a big fat liar  
I took it home and added it to my collection  
It sure feels great against my erection

Sitting in bed, late at night  
It's time for that wool delight  
I get that sock, from my special drawer  
Sure do love my little hand puppet whore

Chorus

I wash it carefully with color safe tide  
Extra softener for that extra slide  
I spray it with the same perfume you wear  
And I sew on a few locks of your hair

And when I flip the sock inside out  
It's kinda kinky, there's no doubt  
It's starting to get a little hole in it  
I've been using it a lot, I have to admit

Chorus

But all good things have to come to an end  
It's getting pretty bad, I can no longer mend  
So I had to retire that sock to the trash  
Because all the patches gave me quite a rash

Then I saw something that scared me straight  
Jeff down the hall was doing his laundry late  
He dropped a sock and I almost shit  
The DAMN sock has MY NAME ON IT
