Intro: G G C C D D G G G C

G C D G

He worked hard all year, just wanted a few weeks alone

C D G

But his old lady's into modeling, she can't get away from the phone

C D G

Besides she bitches about the mosquitoes

C D G

She says, "Down there there is nothing to do"

C D G

Her Goddamn phone never stops ringing

C D G

He'll try the service in a day maybe two

Well he's on his third drink before the wheels of the plane leave the ground

Making points with the stewardess high over Long Island Sound

She's also spending some time on the Island

Too much city madness gives her the blues

They make a date to go dancing and dining

It seems neither has that much to lose

G C D G
C D G

Chorus:

G C G

The weather is here I wish you were beautiful

G F D

My thoughts aren't too clear but don't run away

G C G

My girlfriend's a bore my job is too dutiful

C G F D (Tacet)

Hell nobody's perfect would you like to play?

G C D G C

I feel together today

Well now that's just the start of a well-deserved over due binge

Meanwhile back in the city certain people are starting to cringe

His lawyers are calling his parents

His girlfriend doesn't know what to think

His partners are studying their options

He's just singing and ordering drinks

G C D G
C D G

Chorus:

The weather is here I wish you were beautiful

The skies are too clear life's so easy today

The beer is too cold, the daiquiri's too fruitful

No place like home when you're this far away

I don't care what they say

Chorus

C G F D

He's going back to New York pack it up and let everyone know

It was something that he should have done such a long time ago

Still time to start a new life in the palm trees

Ah, Billy Clyde wasn't insane

And if it doesn't work out there'll never be any doubt

That the pleasure was worth all the pain

Chorus:

The weather is here I wish you were beautiful

The skies are too clear life's so easy today

The beer is too cold, the daiquiri's too fruitful

No place like home when you're this far away

Time for to play I need time for to play Time for to play

I need time for to play (3 more times & fade)
