(School Dropouts)

You talk about having to work all day
A crappy job, and crappy pay
Dropping out of school **is your dismay...**
No I don't want fries with that today

(Man who screws around)

You screw around, it's a sin
A girl half her age and tighter skin
You're surprised when **you lost everythin...**
Just wait for the alimony to kick in

(Milk for free)

She says the milk ain't for free
A wedding ring is your fee
Sex is great for **a year or three**
Then the cow dries up, now-your lactose
free

(Girls who get knocked up on purpose)

You got knocked up in no time flat
It wasn't long before you got fat
Prince charming **left you just like that...**
18 more years with that brat

(wrap that rascal)

You really hate doing the condom thing
Your told be safe if you're gonna swing
Then you had **an unprotected fling...**
Now when you pee you feel the sting

(Taking birth control)

You never like taking birth control
And you take the shots in your hole
Your boyfriend definitely **hit the goal...**
Now your stuck in a parenting role

(Size does matter)

You brag about the size of your stick
And how you nail every chick
Why do all the girls **call you a prick**
And that you've got a tiny little dick
