Intro finger pick 2 count G C D C G

Chorus-----

Today is just yesterdays tomorrow once again
Is this to be my destiny
or is there another plan for me

...Start chord play....

Yesterday I walk along the street
crossed the center line of my life
I looked up to the sky to see
but all I see is a blinding light

G C D C G

Yesterday I walked along the beach
and the tide washed away my dreams
I look out to the open sea
but my hopes sail away with the breeze

Chorus

Yesterday I climbed the mountain peaks
and the rocks crumbled under my feet
I look down to the ground to see
But there is no path for me

Yesterday I look up to the stars
But they hide behind moon beams
A shooting star shot down at me
And steals my liberty

Chorus

... strum after....

Yesterday I saw the storming rain
And a Rainbow formed in the clouds
A lightning bolt struck down at me
And took away my chance to be free

Ending Chorus

...finger picking...

Today is just yesterdays tomorrow once again
I try to change my destiny
But there are forces working against me
